EverSmart Rodent Sensor:
Quick Start Guide

1. Setup account from invite e-mail, or login if already set up.

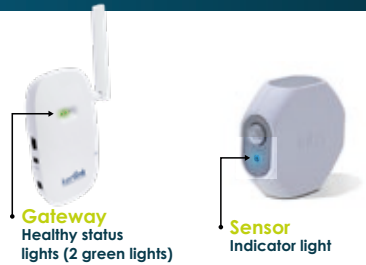

**2.** Download app from IOS or Android app store (Deploy-M2)
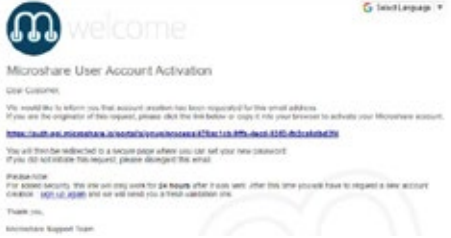

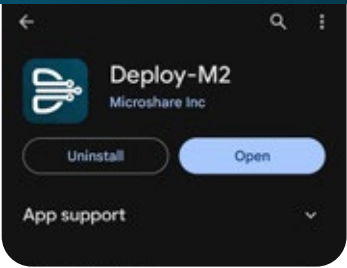

3. Setup Gateway, remove battery tab from sensors, Insert Sim and allow at least 30 seconds for power-on. Look for the blue indicator light on the front. https://mch.re/gateway

Gateway
Healthy status lights (2 green lights)
