

Pest-Stop Wasp & Flying Insect Killer

A fast acting insecticide for amateur use against wasps, mosquitoes and other flying insects.

USE BIOCIDES SAFELY. ALWAYS READ THE LABEL AND PRODUCT INFORMATION BEFORE USE.
Pre-pressurised hand held aerosol.

Contains 1R-trans phenothrin (CAS: 26046-85-5) 0,15 % (w/w) and d-tetramethrin (CAS: 1166-46-7) 0,15 % (w/w). This product is under the control of Pesticide Regulations 1986, for use as directed.

Risk phrases

Extremely flammable aerosol.

Pressurized container: may burst if heated.

Very toxic to aquatic life with long-lasting effects.

Precautionary phrases

Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not pierce or burn, even after use. Avoid release to the environment. Protect from sunlight. Do not expose to temperatures exceeding 50 °C (122 °F). Dispose the contents/container in hazardous or special waste collection. Do not breathe spray. UFI: 4M90-JOYC-2007-GU8F

Risk mitigation measures

This material and its container must be disposed of in a safe way. Do not contaminate foodstuffs, eating utensils or food contact surfaces. Cover all water storage tanks before application. All bats are protected under the wildlife and countryside act 1981. Before treating any structure used by bats, consult Natural England, Scottish Natural Heritage or the Countryside Council for Wales. Hazardous to bees. Do not apply directly to animals. Do not apply to clothing and bedding. Not to be used on pet bedding, pet sleeping quarters or where pets frequently lie. For indoor use only. Wash hands and exposed skin before meals and after use. Keep in a safe place. Do not touch treated surfaces until dry. Action should be taken to prevent foraging bees gaining access to treated nests, preferably by removing the combs or blocking the nest entrance. To avoid risks to man and environment, comply with the instructions for use. Cover any vivarium with impermeable material and turn off air pumps until the aerosol has settled.

Directions for use

Application - Insecticide for amateur use in domestic premises against flying insects such as wasps and mosquitoes. **Application method** - Surface and space spray.

Statutory conditions of approval relating to use

Restrictions of use - For use only as an insecticide.
