

# BONIRAT®

## PASTA FLUO-NP®

**Active:** Difenacoum 29ppm  
**Colour:** Red + Fluo  
**Size:** 5kg - 15g Sachet  
**SKU:** 1101004018

Bonirat ready to use pasta is made using high quality food-grade ingredients, its combination of oily, soft textures and crispy elements enhances performance in all situations.

Packaged in single-dose permeable sachets, it effectively disperses enticing odours allowing for quick and efficient bait take. Bonirat pasta also has the added benefit of Fluo-NP® UV tracking technology.

Fluo NP® UV tracking technology utilises special dyes that are contained within the bait, that once ingested, help fluoresce & highlight rodent droppings with the use of an ultraviolet torch. Helping identify and locate rodent harbourages and movements, aiding in a more efficient baiting programme and assisting in the survey of proofing points.

### Benefits and features:

- Suitable for mice and rats
- For use in and around Buildings.
- Fluo-NP® UV tracking technology
- Enriched with whole cereals & oils, with a high fat and moisture content
- Highly palatable and attractive fresh bait
- 15g ready to use sachets for easy application
