

DIGRAIN

PERBIO CHOC RTU

Fast-Acting, Professional RTU Insecticide for
Flying & Crawling Insects

Powerful Knockdown | Long-Lasting Residual
Multi-Insect Performance | Ready To Use

High-Performance Control for Professional Environments

Perbio Choc RTU delivers rapid knockdown and strong residual action against a wide range of flying and crawling insects, making it ideal for commercial, industrial, agricultural and domestic premises. Designed for professionals who require fast results and dependable performance.

Key Benefits:

Fast Knockdown Formula

Tetramethrin delivers immediate knockdown for quick and decisive control.

Long-Lasting Residual

Permethrin remains active on treated surfaces, providing ongoing protection and reducing reinfestation.

Broad Spectrum Control

Effective against ants, cockroaches, fleas, flies, wasps, hornets, mosquitoes, mites, stored product insects, fruit flies and bedbugs.

Versatile Application

Suitable for surface spraying, fogging/ULV, cracks and crevices, soft furnishings, equipment bases, and nest entrances.

Ready to Use

No mixing required — simply apply and go. Perfect for fast-response treatments.
