

# ekomille 1000

## Environmentally friendly device for continuous catching of rats and mice

**Safe**  
no use of  
toxic substances

**Ecologically**  
sustainable, responding  
to the natural behaviour  
of rodents

**Hygienic**  
odorless and carcasses  
are easy to remove

**Animal friendly**  
no danger to  
non-target species

Ekomille Electrocutie combines the extraordinary possibilities of Ekomille 1000 with a painless and almost immediate killing of rodents by using electrocution.

The device is equipped with a double safety system for safe use.

- ✓ No use of chemicals
- ✓ No spreading of carcasses
- ✓ Feeding with natural bait
- ✓ Safe for non-target species and children
- ✓ Double safety system to prevent accidental shocks
- ✓ Instant killing by electrical discharge of 9000 Volts
- ✓ Up to 50 catches

Protective case in metal or wood

## FEATURES

<b>Material:</b>	ABS, PP, PPS
<b>Dimensions:</b>	L 330 x W 460 x H 630 mm
<b>Weight:</b>	10 kg
<b>Power supply:</b>	2x Lithium battery - not included
<b>Target species:</b>	<i>Rattus rattus</i> , <i>Rattus norvegicus</i> , <i>Mus domesticus</i>
<b>Included:</b>	1 x Ekomille Electrocutie, bait bag 645g (3 types of seeds), 1 x scoop 1 x pair of gloves, 1 x manual

## OPERATION

### 1. Food preparation

Place the Ekomille in the zone to be controlled in the "OFF" position.  
Once they have become accustomed to the Ekomille, they will experience it as a feeding place.

### 2. Electrocutation operation

At the stairs to the central feeding place there are 3 metal plates, conductors of electricity. The electrocution is activated after contact with the sensor. The electricity is conducted through all three plates simultaneously to prevent the risk of escape and to ensure killing.

### 3. Collection of the carcasses

The rats are collected in the bottom fully closed compartment. The bottom compartment is provided with odor-eliminating liquid, so that the carcasses do not cause any odor nuisance. Not spreading the rodents further protects the environment against the risk of contamination.

REFERENCE	DESCRIPTION
1101078251	Ekomille multi-catch trap, electrocution
EKOFOOD100	Bait bag 645g
EKOFIX100	Concentrated odour remover 5L
1101078067	Protective box metal/green
1101078068	Protective box aluminium/wood
1108007993	Tubular frame
1108007995	Carrying aid
